

PRO-FINISHER—LG

Specifications:

- ◆ Unit Dimensions: 45L x 19W x 17.86H (26 gallon water capacity)
 - ⇒ Cleaning tank: 22L x 16W x 11.75H
- ◆ Auto-separator tank design
 - ⇒ Waste wax is **skimmed** off top of cleaning tank by water flow
 - ⇒ Waste wax is **separated** to minimize wax intrusion to pump.
 - ⇒ Waste wax **automatically drains** off to removable drawer to be discarded
- ◆ External pump/plumbing for water circulation
- ◆ Water level maintained automatically via reservoir tank
- ◆ Thermostatically controlled water temperature
- ◆ 1500 W, 120 V, 1 phase heating element requires 15 amp circuit
