

PRO-FINISHER—SM

Specifications:

- ◆ Unit Dimensions: 27L x 16W x 13.875H (12 gallon water capacity)
 - ⇒ Cleaning tank: 13L x 12W x 8.25H
- ◆ Auto-separator tank design
 - ⇒ Waste wax is ***skimmed*** off top of cleaning tank by water flow
 - ⇒ Waste wax is ***separated*** to minimize wax intrusion to pump.
 - ⇒ Waste wax ***automatically drains*** off to removable drawer to be discarded
- ◆ External pump/plumbing for water circulation
- ◆ Water level maintained automatically via reservoir tank
- ◆ Thermostatically controlled water temperature
- ◆ 1500 W, 120 V, 1 phase heating element requires 15 amp circuit
